CHARTER OF INCORPORATION.

The rooms are large and commodious and fitted up in splendid style. The ample experience of the Principal. as a practical accountant, renders him competent to impart valuable instruction to his students. On introducing the subject to the pupil, he is led carefully step by step, through the fundamental and general features of the science, and when these are fully realized, he is required to embark into a career of general speculation and merchandizing; framing and adjusting contracts, purchases, sales, &c., under the immediate direction of Mr. Boyd making the necessary entries in the principal and auxilary books, in precisely the same manner and order as they are made up by the skillful Book-keeper, in the counting-room of actual business. Thus, when the work is completed, the student finds himself not a mere Theoretical, but a Practical Accountant—being fully conversant with every branch of his interesting and important science, as applied to Wholesale, Retail, Shipping, Exchange, Banking, Commission, Steamboating, and business of compound or Cempany speculation, in each of which he has met with adverse as well as prosperous operations.

It is an important fact, admitted by those who have informed themselves on the subject, that the practical work of this institution places it on an eminence far above the msjority of similar ones wand it is by the thorough exercise of this one feature, that our students are, in some two months, enabled to acquire a competency for, and familiarity with Commercial pursuits,

They will find this to be one of the best points in all the West for buying and packing meat. Our eight Railroads running from this point to nearly every market in the United States, gives dealers great facility in reaching a market with their products—without delay—we have the best hog growing country in the western States. This is as fine a slaughtering and packing establishment as can be found in the West—a good basement story fer packing, 150 feet by fifty feet, with eighteen inch wall—so situated that bulk mean never freezes. There is attached to the establishment a steam-work to prevent hogs from freezing on the hoots—also a large convenient bulking house detached.

TO CONSUMERS OF PICKLES.

DELIEVING that the public have become tired of Durchasing Pickles in packages, holding in many cases, fifty per cent. less than represented, we have commenced putting up, in addition to our second size jar, an article which we are labelling, "Wm. Underwood & Co's Extra Pickles." and are filling into full sized jars, which are legibly stamped in the glass, with their exact contents in ounces—thus enabling the consumer to verify their truth.

These Extra Pickles are put up with every regard to to style quality and flavor, and will be sold atfairly remunerating prices.

We have made no change in our manner of Greening Pickles, never having resorted to any deleterious Pickles, never having resorted to any deleterious means to attain this end. The Cider Vinegar while we use is made from sound fruit, and is entirely free

J. L. Brown's Patent, January 15, 1856.

THESE MACHINES have now been thoroughly tested, anumber of which are now in successful operation, and are giving perfect satisfaction, as will to seen by certificates from purchasers. They are built of Iron, and put up all ready for attaching the power, and being a self-feeder, it requires no extra skill to operate and keep them in order. We are now building three sizes, as follows: No. 1 has four knives, and will cut 200,000 Laths per day, with three horse power. No. 2 has two knives, and will cut 100,000 Laths per day, with two h rae power. No. 3 has one knive, and will cut 50,000 Laths per day, with one horse power. Read the certificates of those that are running the above machines.

queumulated humors, from the interior surface of the bowels, and expell all such humours entirely from the system.

Another great influence they exert upon the system is their regulating powers. No matter whether it be a MAN or WOMAN, whose system may be out of order, whose organs are irregular, in the natural performance of their several duties, a dose or two of Radway's Regulators will quickly oure all irregularities, and force a pleasant and natural evacuation from the bowels at a regular hour, each and every day. The ladies whose monthly turns are not regular, a dose or two of Radway's Regulators and Ready Relief will always insure their regular discharge at the proper time.

FEVER AND AGUE CURED.—Pierson Meney, Esq., of Carrolton, Miss., owns a large plantation and works over one hundred negroes on the bottom lands of the Mississippi—a section of country as celebrated for the Fever and Ague as the river Styx in anelent mythology was dreaded as a place invested with evil spirits.—While the negroes of other planters are shaking to please with ague, Pierson Money's "darkies are fat, hearty and happy, at work, singing with Joy their songs and glees, for they feel safe from all diseases as leng as they have Radway's Ready Relief to guard them. Not one hour's work has been lost on Mr. Money's plantation by slckness since he began to use Radway's Ready Relief and Regulators are positive caree for Fever and Ague, Dysentery, Billiousness, Cholle, Headache, Rheumatism, Nervousness, Costiveness, Dyspepsia, Indigesion, and other diseases of the Stomach, Lungs, Bowels, Kidneys, Nerves, Brain, Liver, Head, Heart, Chest, Sides, Back, &c.

Goods direct from Europe. In addition to which
one member of our firm spends all his time in the Eastern markets. By this arrangement we receive new
goods every week. And as they are bought principally
for cash, we think we can offer very strong inducement
to buyers. Our stock will at all times be found large
and well assorted, embracing every article in the Dry
Goods line. And we pledge oursel/es to sell as low
as similar goods can be bought in any market, east or
west.
